

ZHENYU ZHAO

London, UK \diamond z.zhao@temple.edu

EDUCATION

Temple University , Philadelphia, PA, USA Ph.D. in Computer and Information Science (in 2021 Spring) Ph.D. in Electrical and Computer Engineering	Jan 2021 – Dec 2024 (expected)
George Washington University , Washington D.C., USA Master of Science in Electrical Engineering	Aug 2018 – May 2020
Wuhan University of Technology , Wuhan, China Bachelor of Engineering in Automation	Aug 2014 – May 2018

WORK EXPERIENCE

Grid Software Intern Siemens <ul style="list-style-type: none">TNA upgrade project	Jun 2024 - Aug 2024 <i>Minnetonka, MN</i>
Intern PJM Interconnection <ul style="list-style-type: none">Studied the Energy Management System (EMS) and analyzed the historical trend of busesWrote Python script translating all transmission information into PI data label, retrieved data building achieved datasetConducted research on nodal load disaggregation with known proxy solar index	Jun 2023 - Apr 2024 <i>Audubon, PA</i>

RESEARCH AND TEACHING EXPERIENCE

Graduate Research Assistant Temple University <ul style="list-style-type: none">Conducted experiment of intrusion detection for IoT devices project based on time intervalCollaborated with PJM Interconnection on nodal load disaggregation project. Proposed disaggregation model based on the nodal and zonal relationCollaborated with Plug Power, building a prognostic health monitoring for hydrogen fuel cell systems. Processed data from different devices, proposed binary classification model based on LSTM, conducted training, outcome analysis, and tuning	Jan 2021 - Present <i>Philadelphia, PA</i>
Graduate Teaching Assistant Temple University <ul style="list-style-type: none">Lecturing and grading for CIS 1051 (Introduction to Python) lab, CIS 3319 (Wireless Network and Security) lab, and CIS 3329 (Network Architectures) lab	Jan 2021 - Dec 2021 <i>Philadelphia, PA</i>

ACADEMIC SERVICES

- Reviewer for: IET Smart Grid, IEEE Transactions on Transportation Electrification, IEEE VPPC, IEEE CDC
- Student volunteer and recipient of student travel grant at ITEC 2023, Detroit, MI
- Student volunteer at IECON 2018, Washington D.C.

SKILLS

- Quantitative analysis, machine learning, data analysis
- Programming language: python, SQL, FORTRAN

RESEARCH AREA

- AI adoption in power systems
- Transmission scale solar energy disaggregation
- Deep learning based health monitoring for hydrogen fuel cell

PUBLICATIONS

Conference Papers

BIO

During my PhD studies, I have worked on cutting-edge AI research projects and gained industry experience from Siemens, PJM interconnection and Plug power. This journey has given me a comprehensive view of power systems and renewable energy.

I currently live in London UK on dependent visa. I have right to work in UK. And I do not need any visa sponsorship now or in the future.
